

ADATA i-Memory Flash Drive UE710

The UE710 provides a luxurious design with meticulous quality plus the convenience of combined Lightning and USB 3.0 connectivity. With up to 128GB capacity and a free and easy to use app, the UE710 enables effortless high speed content access anywhere on iPhone, iPad, and iPod, plus interconnectivity with PC/Mac. Users can download the i-Memory app, which delivers easy content management, file preview, camera roll access, Ultra HD 4K playback, and compatibility with Apple AirPlay. It brings together advanced usability and an exquisite style, making it a very appealing choice for Apple fans everywhere.

Extra durable and clutter-free

A push-to-slide USB connector prevents the unnecessary wear and tear that fixed and exposed USB plugs experience. It also means the UE710 doesn't need a cap cover, so there's less mess and nothing to lose.

iOS Dual Standard Support

The plug and play UE710 supports Lightning and USB with a bi-directional design. It makes data transfer and backup between iOS mobile devices and PC/Mac effortless.

MFi-Certified

The UE710 meets MFi requirements and exceeds them thanks to meticulous ADATA testing. It provides leading quality and design, far beyond the standards of generic expansion products.
