

# Incipio® CommandKit™

Smart Light Bulb Adapter with Dimming

Take control of every bulb in your home with the Incipio CommandKit™ Wireless Smart Light Bulb Adapter. Utilizing your iPhone, you can remotely take control of your devices at home or on-the-go. Toggle specific bulbs or an entire home with integrated Siri voice commands for effortless accessibility and next-level wireless power management. Manage your dimmable light bulbs with the dimming feature.

 **REMOTE ACCESSIBLE**  
Remotely access your home automation devices from anywhere.

 **DIY INSTALLATION**  
No expensive installation needed; easily use in any home.

 **DIMMING**  
Allows you to set various moods in your home.

 **ZERO CONFIGURATION**  
Connect the product to power and then to your WiFi network. It's that simple!

 **SIRI VOICE CONTROL**  
With the CommandKit™ app, you can use Siri voice control to command your outlets.

 **PROXIMITY**  
Set accessories to turn on or off automatically as you arrive or depart your home.
