

S-BINER[®]

MicroLock[™]

Our classic S-Biner design just got a great big upgrade – it locks!

The S-Biner MicroLock is the perfect size to hold and organize keys to rings or for organizing other smaller items. And now, with its added twist lever, it also locks perfectly, preventing any unintended or accidental openings. Made of high quality stainless steel, the S-Biner MicroLock features a center lever made of durable plastic--a simple twist effectively and securely locks the gates, and keeps them that way until you twist it open again. Great for removing a single key from a ring to take on a run or ride, give to your mechanic, or leave for a friend. The S-Biner MicroLock is versatile, convenient, and ultra-secure.

S-BINER[®]

SlideLock™

With its two strategically designed plastic sliders the S-Biner SlideLock allows you to close the gates and lock them behind you.

Organize, connect, carry, and keep your valuables extra secure with S-Biner Slide Lock Double-Gated Carabiner. Made of high quality stainless steel, each S-Biner SlideLock features two simple, innovative plastic sliders that, when slid into correct placement, keep the gates securely closed. Your S-Biner SlideLock will stay firmly locked until you choose to unlock it, allowing for simple and secure linking, attaching, and carrying. Each gate can be independently locked for convenient access. Available in two sizes (#2 and #4) for small-to-larger tasks.

S-BINER[®] STAINLESS STEEL

Double-Gated Carabiner

All the Usefulness of a Single-Gated Carabiner...

Times Two! Our unique, two-in-one S-Biner offers functionality for a nearly endless variety of uses.

Made of high quality, weather-resistant stainless steel, this ultra-handy accessory with its dual spring gates will hold, secure, and connect everything from house keys and cell phones to technical camping gear. Attach valuables to the center bar for ultimate security, link gate ends to a second set of items and anchor, or connect many items together. Smaller-sized S-Biners[®] are excellent for connecting two zipper sliders on backpacks, duffels, and suitcases.

We know that one size doesn't fit all, so we've designed six different sizes so you can choose the right size for the task at hand. We've found that the smaller sizes work great for hanging smaller items from a purse or backpack strap, attaching to individual keys, or hanging a plant from a ceiling hook. The larger sizes work great for bigger jobs like hanging a paint can from a ladder or a tool to your tool belt. But, the list goes on and on. We think Backpacker Magazine said it best when they wrote "Don't ask yourself if you need this useful little widget. The question is: how many?"
