UTILITY SERIES LATCH II

THE ULTIMATE UTILITY ACCESSORY

Our original Latch model proved useful for many. But when we saw the opportunity to create a new, innovative Latch design, we jumped at the challenge. Featuring improved corner attachment hooks, a rotating hand strap accommodating portrait and landscape viewing and two convenient sizes offerings for more tablet options, every innovative and improved feature of the Latch II is designed with our customers in mind. Whether you use your tablet for data collecting in the field, for maps while flying or are looking for other ways to keep your tablet on hand while with you work, the OtterBox Latch II is the only accessory you need.

Latch II 10" Features
